The purpose of the activities is to help you review material you have already studied in class or have read in your text.

### Lab 11: Animal Behavior - Prentice Hall

AP Biology Lab 11: Pre-Lab Animal Behavior Background Perhaps one of the most difficult fields of biology to study is ethology, the study of animal behavior. Observation of a behavior is simple; interpreting what has been observed requires more effort; therefore, more than any other division of research in biology, ethology calls for patience, objectivity, and imagination.

### AP Biology Lab 11 Animal Behavior - AP Biology Lab 11 Pre ...

Animal Behavior AP Lab 11 Introduction: Ethology is the study of animal behavior. This involves observing an organism's behaviors, interpreting what is observed, and research different organisms. Ethologists study and observe an organism's reaction to the environment around them. Biotic and abiotic factors are limiting factors that control the maximum size of a ...
