How to order Cisco Prime Infrastructure 3.0 - Cisco Full Bars

A vulnerability in the APIs for Cisco Prime Infrastructure could allow an authenticated, remote attacker to access an API that should be restricted to a privileged user. The attacker needs to have valid credentials. The vulnerability is due to a lack of proper role-based access control (RBAC) for certain APIs in the application. An attacker could exploit this vulnerability by authenticating to ...

Windows NPS Radius Authentication of Cisco Prime Infrastructure Posted on March 25, 2013 by

Adam As part of a recent network upgrade I was able to get Cisco Prime Infrastructure included in the moneys for the project.

Windows NPS Radius Authentication of Cisco Prime ...

Symptom: At present, we are not able to see the the Client information in Prime infrastructure when Client is connected to Nexus which has VRF management. PI uses "sh ip arp" to get client details; when Nexus is used in VRF, the client information is discovered using "sh ip arp vrf management".
Conditions: When multiple VRF is created in Nexus and clients are connected to Nexus device under VRF.
